

AGC EDUCATION AND RESEARCH FOUNDATION

AGC FOUNDATION WORKFORCE DEVELOPMENT SCHOLARSHIP

The AGC Education and Research Foundation offers Workforce Development Scholarships to students enrolled in accredited technical schools or craft training programs in any discipline of construction.

This is not the AGC Scholarship for students in four-year degree programs. If you wish to apply for that scholarship, go to scholarship.agc.org when the application opens in July.

The Workforce Development scholarship is for students pursuing associate degrees, technical training or certificates to enter the construction industry. This scholarship is for \$1,000 per year and can be renewed for up to two years.

Applications must be submitted by **June 1, 2017** and are for the 2017-18 academic year. If you are selected as a finalist, you will be notified by **July, 2017**. The next step is an interview with a contractor in your area. Following the interview, scholarship recipients will be selected and announced in **August, 2017**. Students will receive their awards at the start of the September 2017 school year.

To apply, applications must be completed online. All applicants must sign-up for new login information before starting the application.

There are two very important things to remember:

- You must meet the [criteria](#) to apply.
- Be sure that your evaluator (either a teacher or an employer) knows that you are requesting a recommendation and log back in to your application to ensure the recommendation has been submitted. Your application is not complete until the evaluation has been completed AND YOU SUBMIT THE APPLICATION.
